PERSONAL PROJECTS

Employee CRUD [Angular, Spring-Boot,MySQL] (12/2021 - 01/2022)

- This is a complete Dynamic application that uses spring-boot and java as backend and MySQL as database. This app also uses angular routing and hence supports multiple pages. This app can be used productively in any sector that requires crud operation to be performed.
- The complete source code to this web app is available in my Git Account.

Personal Portfolio website [HTML, CSS, JS] (10/2021 - 11/2021)

- This is a fully responsive static website made using HTML5, CSS3 and JavaScript.
- Website is live now [click here](#) ↗

Online Pizza Ordering System[php, Mysql, xamp] (01/2019 - 03/2019)

- This was a complete fully functional online ordering system that was built using php and mysql and was web hosted using 00webhost. And this project was completed along with the efforts of our guide teacher.
